BRANDING

BRANDING

Creating brands is what we excel at. Whether you need a logo for a new business start up or a fully considered brand applied across all your customer touchpoints, we develop solutions that look great and work.

Perhaps you have a brand that's become a bit stale over time? We take a detailed look at your current assets and propose a well considered evolution, or perhaps a complete overhaul, taking into account factors such as budget, objectives and your competitors.

Shown here is a selection of just some of the branded work we have produced for Life Leisure who run 7 leisure centres across Stockport, Manchester.

“KYAK did a fantastic job designing our padel club logo. They listened closely to our feedback and created a versatile design that we can use across all our assets. We’ve received a lot of positive comments from our customers. Highly recommended, and we’ll be using them again in the future.”

Padel@Bottesford

BRANDING

We love the challenge of creating a new brand, or even developing an existing one. Shown here is a recent logo and brand application for a new padel club. The brief was to create an identity that reflects Padel@Bottesford’s distinctive rural setting, with an affluent and aspirational membership base and the first of what is hoped to become a wider network of clubs.

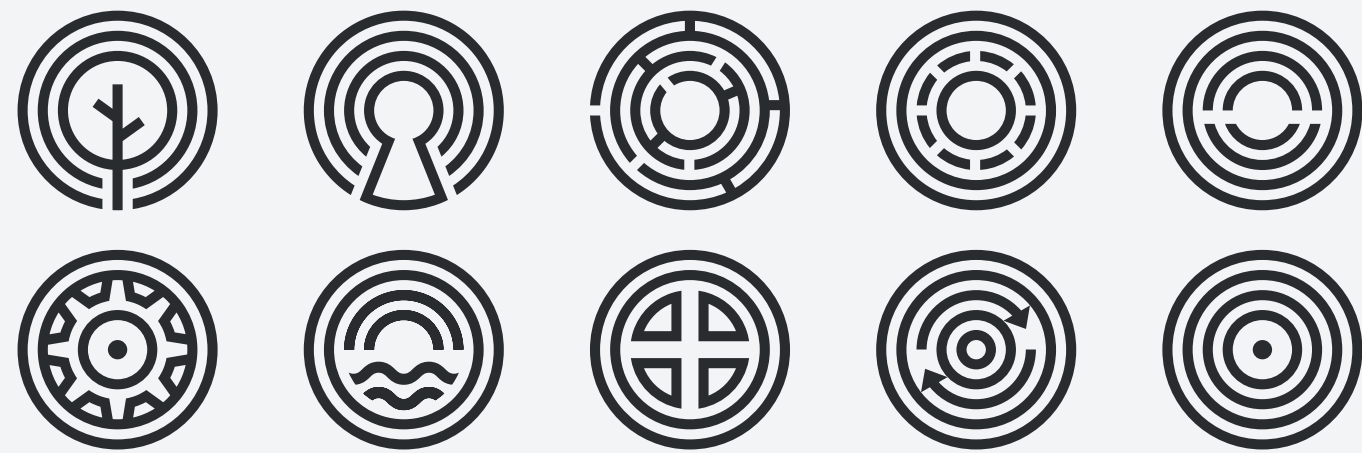

As a new and innovative Padel club with family, kids and community at it’s heart, the brand needed to show that the club is more than just a place to play, but a place to belong.

The club is now up and running and the testimonial we received demonstrates how we achieved the result the client was aiming for.

BRANDING

We don't just work with sport and fitness brands, we also have experience across many other sectors such as this new brand we produced for a Landscape Architect business.

We developed their logo, created comprehensive brand guidelines, market sector icons, social templates, signage, interior concepts and much more.

Rob and his team have been a pleasure to work with over the past couple of years during a critical time for us building up to Tokyo 2020.

Their designs have added real weight to our media campaign, plus they've been great value too.

Highly recommended.

We enjoy working with KYAK and consider this agency an extension to the marketing team here at tombola. KYAK are incredibly responsive, always available when we need them, and quick to learn the nuances of our brand and industry. Rob's creativity and strategic thinking stands out, bringing fresh ideas and effective solutions for each stage of our marketing funnel—from brand awareness to acquisition and retention. We've successfully launched campaigns across multiple channels in three countries, his approach has been seamless and consistent, showing a strong grasp of each market's unique needs.

If you're looking for a reliable, innovative partner to help your brand grow, I highly recommend KYAK. Their expertise, dedication, and passion make them an invaluable asset to any team!

Alex Hurst **Ex-England rugby league** **Matrix fitness**

A big shout out to Rob and the team bringing my ideas to life. From someone who is a little less imaginative like myself and needs guidance, I highly recommend these guys. The initial brand review provided clarity and guidance on what the best process was and then into the development phase of the process, giving me chance to create content, add features, tweak, chop/change different ideas, ending in the final result.

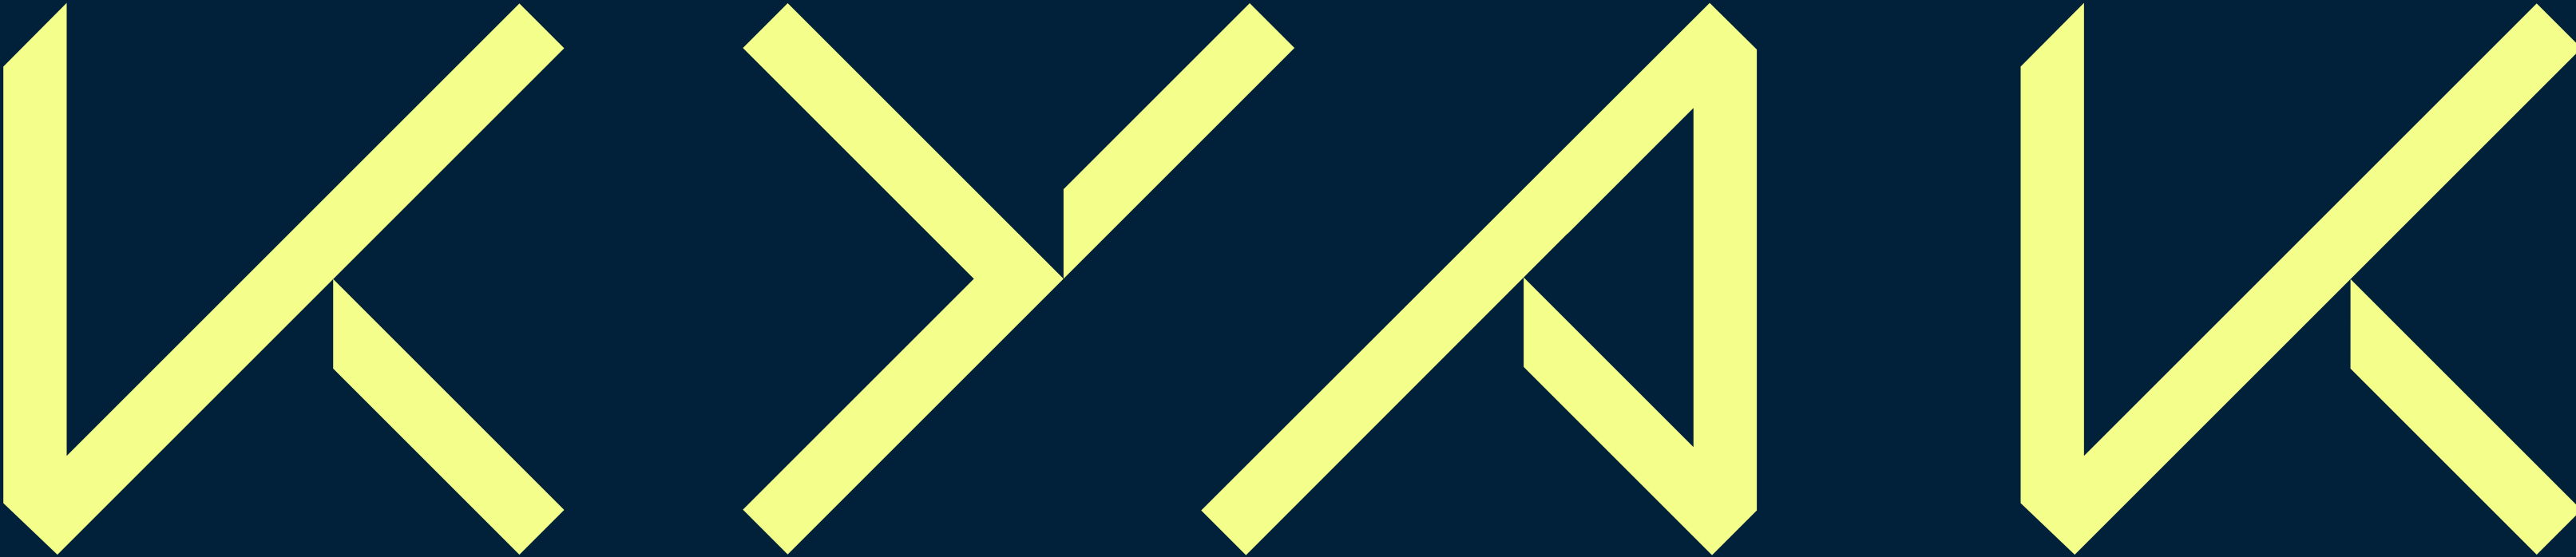

If you are looking for rebranding, marketing and an online presence I highly recommend KYAK.

John Oxley **CEO** **Life Leisure**

Rob is an outstanding creative who captures the essence of customer need which he allies to market understanding.....and he's a thoroughly nice bloke too.

A rare mix and one well worth connecting to.
